# GREEN FIT

Authorized Interface for AutoTrac™ System

## Your Equipment, Your Choice

GREEN FIT is for growers who want to use the AutoTrac™ guidance system on the equipment brand of their choice. GREEN FIT is an interface that utilizes the same monitor and user interface that users of the AutoTrac™ guidance system want. The GREEN FIT interface eliminates the burden of learning and converting to a new steering system when buying another equipment brand.

### Authorized Interface

GREEN FIT is authorized by John Deere and equipment manufacturers as a navigation interface that utilizes AutoTrac™ and OEM guidance ready components to steer qualifying vehicles.

### Accepted Standards

GREEN FIT fulfills John Deere's quality and engineering standards while maintaining vehicle safety, warranty and functionality.

### Required John Deere Components

- StarFire™ Receiver 3000/6000
- GreenStar™ Display 2630/4640 with AutoTrac™ Activation

### GREEN FIT Components by Reichardt

- GREEN FIT controller and main harness
- Vehicle specific harnessing and hardware

### BENEFITS

- Provides AutoTrac™ functionality on a variety of qualifying vehicles
- Fulfills John Deere's quality and engineering standards
- Maintains vehicle safety, warranty and functionality
- Easy installation

### QUALIFYING VEHICLES

Contact Reichardt for a list of qualifying vehicles.
